

PRE-EMERGENT TURF HERBICIDES

PRODUCT	U/M	DESCRIPTION	RATE
SPRAYABLE PRE-EMERGENT HERBICIDES FOR TURF			
Barricade 4F	1 gal. 30 gal.	<u>Contains 40.7% proflamifan.</u> Selective pre-emergent provides residual control of grassy and broadleaf weeds in turf and ornamental plantings. Inhibits weed seed germination and root development with up to 26 weeks of control with one application. Excellent control of crabgrass.	10–48 oz./ ACRE
Dimension 2EW	2.5 gal. 30 gl	<u>Contains 24% dithiopyr.</u> Dimension® specialty herbicide is the only preemergence herbicide that offers excellent early postemergence control of crabgrass. It also is proven effective for more than 45 other grassy and small-seeded broadleaf weeds.	0.37 - 0.73 fl oz/ 1000 sq ft
Dimension Ultra 40 WP	8 x 5 oz.	<u>Contains 40% dithiopyr.</u> Pre and Post emergent control of grassy and some broadleaf weeds with minimum movement in soil. Non-staining. Comes in a water soluble packet.	2 – 4 x 5 oz pouches/acre.
Gallery SC	1 lb.	<u>Contains 45.45% isoxaben.</u> Gallery® specialty herbicide provides superior preemergence broadleaf weed control with best-in-class ornamental and turf safety. Not only does Gallery minimize hand-weeding in landscape ornamentals and established turfgrass	0.3– 0.7 fl oz./ 1000 sq ft
Pendulum Aqua-Cap	2.5 gal. 15 gal 30 gal	<u>Contains 38.7% pendimethalin.</u> Pendulum AquaCap herbicide offers preemergent control of grassy and broadleaf weeds in a liquid formulation, including crabgrass, goosegrass, foxtail, barnyardgrass, fall panicum, chickweed, henbit, knotweed, spurge and others. Pendulum AquaCap herbicide encapsulates a water-based formulation	1.1–3.1 oz./ 1000 sq ft
Resolute	5 lb 1 gl	<u>Contains proflamifan.</u> Economical pre-emergent control of certain grassy and broadleaf weeds, providing season long control.	See labels
Ronstar Flo	2.5 gal.	<u>Contains 34.1% oxadiazon.</u> Ronstar is an excellent preemergence option for goosegrass control, in addition to crabgrass and other labeled annual weeds like annual sedge. Ronstar should be applied in late winter/early spring, prior to germination. Controls weeds through shoots, not roots.	1.85–2.8 fl oz./ 1000 sq ft
Specticle Flo	1 gal.	<u>Contains 7.4% indaziflam.</u> Specticle Flo is a pre-emergent weed control, providing broad spectrum control of grassy weeds including poa annua, crabgrass, goosegrass and more than 60 broadleaf weeds. For warm season grasses only.	3-10 fl oz / ACRE
Tower	.5 gal.	<u>Contains 63.9% dimethenamid-p.</u> Tower herbicide is a broad-spectrum preemergence herbicide which provides excellent control of yellow nutsedge and annual sedges along with numerous grassy and broadleaf weeds including goosegrass, crabgrass, field sandbur and spurge.	21–32 fl oz./ ACRE
GRANULAR PRE- EMERGENT HERBICIDES FOR TURF			
Crew	50 lb.	<u>Contains 0.5% isoxaben and 0.25% dithiopyr.</u> Using Verge granule technology, Crew™ specialty herbicide is an easy-to-use preemergence granule solution for turfgrass and landscape bed needs. With application flexibility and long-lasting results, Crew will provide broad-spectrum preemergence control of a wide variety of grassy and broadleaf weeds.	150 - 200 lb / acre
Barricade .48 DG PRO	50 lb.	<u>Contains 0.48% proflamifan.</u> Granular DG PRO formulation for use in turf and ornamental plantings. Provides 3-4 months of control of many grassy weeds. Safe for over-the-top applications in a wide range of plant material.	3–6 lb./ 1000 sq. ft.
Dimension .25 DG PRO	50 lb.	<u>Contains 0.25% dithiopyr.</u> Granular DG PRO formulation for use in turf and ornamental plantings. Provides 4–6 months of control of many grassy and broadleaf weeds. Safe for over-the-top applications in a wide range of plant material	4.5 lb./ 1000 sq. ft.
RegalStar G	50 lb.	<u>Contains 0.2% proflamifan and 1.0% oxadiazon.</u> A unique premixed formulation in an easy to spread granule. Provides control of grassy and broadleaf weeds in ornamental beds and turf.	4.5 lb./ 1000 sq. ft.
Specticle G	50 lb.	<u>Contains 0.0224% indaziflam.</u> Specticle G is versatile, pre-emergent herbicide that sets a new standard for residual control at the lowest use rates on the market. It helps maintain premium, weed-free turf for the entire growing season - making it one of the most effective tools in any turf manager's arsenal. For warm season grasses and ornamentals only.	2.3 - 4.6 lb./ 1000 sq. ft.
Vexis	2 lb. 15 lb.	<u>Contains 0.025% pyrimisulfan.</u> Vexis Herbicide Granular uses the proprietary new active ingredient, pyrimisulfan to deliver exceptional control of sedge and kyllinga species, plus listed broadleaf weeds.	2lbs/ 500 sq. ft.
